Picture 1: working position of MBI 70-1/S – subject to change

1 Specification of MBI 70-1/S truck mounted version¹

Technical Data (operation):	
Max. Horizontal range	7,00 m
Max. lowering depth	5,80 m
Width of platform	1,00 m
Space required on bridge	2,00 m
Max. load on platform (kg)	400 kg
Max. load on telescopic platform (kg)	200 kg
Rotation of platform	180°
Max. overbridging of sidewalk	1,90 m (chassis – tower)
Max. crossing of sound barrier	2,30 m
Transport dimensions	
Dry weight	Approx. 6.500 kg
Overall length	8,50 m
Overall width	2,40 m
Overall height	3,90 m
Max. slope (transversal and logitudal):	6%
Max. wind speed :	12,5 m/s

- Measurements and weights are be subject to change.
- Detailed measurements can be seen on the attached technical drawing.

¹ All data depending on truck model
